WHEREAS by section 18 of the Extradition Act, 1870, it is enacted that if by any law or ordinance made after the passing of the said Act by the Legislature of any British Possession provision is made for carrying into effect within such Possession the surrender of fugitive criminals who are in, or suspected of being in, such British Possession, His Majesty may, by the Order in Council applying the said Act in the case of any Foreign State, or by any subsequent Order, either—

Suspend the operation within any such British Possession of the said Act or any part thereof, so far as it relates to such Foreign State, and so long as such law or ordinance continues in force there and no longer;

Or direct that such law or ordinance or any part thereof shall have effect in such British Possession, with or without modifications and alterations as if it were part of the Act:

No. 212.—The rules providing (I) for the care and use of Government cemeteries throughout India, except those in the presidency town of the diocese of Calcutta and the presidency town of the diocese of Bombay; (II) for the levy and expenditure of fees on graves and monuments in cemeteries and churches throughout India; (III) for the levy of other ecclesiastical fees throughout India; (IV) for the erection, repair and endowment of monuments in Government cemeteries throughout India, except in the town and suburbs of Calcutta; and (V) for the regulation of grants for the building of churches, the supply of church furniture; and for the payment of compensation for accommodation provided for soldiers in churches neither belonging to, nor rented by Government, have been revised and consolidated and are published for general information and guidance :—

PART I.

Rules for the care and use of Government cemeteries throughout India, except those in the presidency town of the diocese of Calcutta and the presidency town of the diocese of Bombay.

CHARGE OF THE CEMETERY.

RULE.—(1) The resident chaplain of a station has charge of the general cemetery, and frames an estimate of the expenditure connected therewith in accordance with the directions contained in paragraph 1 of the Home Department * Resolution Nos. 6—370-382, dated 9th November 1876.

* Appendix A

(2) The term "resident chaplain" includes a clergyman of the Additional Clergy Society so far as concerns the stations to which he stands appointed, or other clergyman of the Church of England placed in charge by the Bishop.

(3) Where there are lay trustees or a church committee they will have the same powers and responsibilities in regard to the cemetery as in regard to the church. At stations where there are no trustees or committee, if there is no resident chaplain or during the temporary absence of the chaplain, the charge of the cemetery vests in the chief magistrate on the spot, or the senior military officer if the cemetery is attached to a military cantonment.

(4) At out stations where there is a church committee the charge of the cemetery will vest in the senior member of the committee, provided that, if the station does not contain a church which is the property of the Government the appointment of the senior member of the committee to hold charge of the cemetery will be subject to the approval of the Bishop or Archdeacon who may, if he consider it advisable, appoint some other person to the charge. At out-stations where there is no church committee the charge of the cemetery will vest in such person as may be nominated thereto from time to time by the Magistrate or Deputy Commissioner of the district, but subject to the control of such Magistrate or Deputy Commissioner.

(5) All projects for original works in connection with cemeteries attached to Government churches in civil stations and cemeteries in Imperial Provinces without provincial settlements whether attached to Government churches or not, which require the administrative sanction of the Government of India should under the Home Department orders Nos. 49—85, dated the 9th February 1907, be submitted by the ecclesiastical authorities to the local Government which after examining them will transmit them, with any remarks that it may desire to offer, to the Government of India in the Department of Education for consideration. All proposals relating to the construction or alteration of cemeteries attached to Government churches in cantonments and of other cemeteries in charge of the Military Works Services whether attached to Government churches or not should under the Home Department orders Nos. 58—71, dated the 18th February 1909, be submitted by the ecclesiastical authorities to the General Officer Commanding the Division or Independent Brigade within whose jurisdiction the cantonment is situated, who will forward them to the Director-General of Military Works when the cost of the work is less than Rs. 1,500 and to the Quartermaster-General in India when the cost exceeds Rs. 2,500. The Director-General will submit proposals forwarded to him direct to the Department of Education after consulting the Quartermaster-General unofficially. In the cases of the larger cost the Quartermaster-General after satisfying himself of the necessity for the work proposed will, when the work is to be carried out by the Military Works Services, request the Director-General of Military Works to submit the proposals, together with approximate estimates of their cost and the reports of the local military officers, for the consideration of the Department of Education. When the work is to be carried out by the Public Works Department the Quartermaster-General will request the General Officer Commanding concerned to forward the proposals to the local Government which after examination, will transmit them, with any remarks it may desire to offer, to the Government of India in the Department of Education for consideration. Proposals in connection with cemeteries attached to Government churches in railway colonies should be submitted by the managers or agents of the railways concerned to the Railway Board for consideration. Projects for original works in connection with cemeteries not attached to Government churches the charges for which will be debitable to Provincial revenues should be dealt with under the orders of the local Government concerned.

RULE 2.—Each cemetery is allowed a mali-chaukidar or chaukidars in accordance with the scale prescribed in paragraph 2 of the Home Department Resolution † Nos. 6—370-382, dated 9th November 1876. These chaukidars are paid by Government through the resident chaplain, by whom they are appointed and dismissed. In stations where there is no resident

† Appendix A

chaplain, the chaukidars are paid, appointed, and dismissed by the other officers named in rule 1. House accommodation for cemetery chaukidars may be provided at the cost of the State.

RULE 3.—Every reasonable effort should be made by the resident chaplain or other officer in charge under rule 1, not only to keep the cemetery in decent order, but to preserve its character as the resting-place of the remains of departed friends by providing for the necessary repairs and by planting the ground with suitable trees.

NOTE.—Expenditure under this rule will be met in the manner indicated in paragraph 1 of the Home Department Resolution * Nos. 6—370-382, dated 9th November 1876.

* Appendix A

RULE 4.—The chaukidar will keep the key of the cemetery under the direction of the officer in charge.

RULE 5.—The officer who has charge of the cemetery under the operation of rule 1 will perform all the duties assigned to the chaplain by rules 7, 8, 9, 10, 11 and 12, with the exception of the approval of designs of tombstones and of inscriptions to be cut on them. In the case of a tombstone in that part of the cemetery which is reserved for the Church of England, the proposed design and inscription must be forwarded to the resident or visiting chaplain, or, if there be none, to the Archdeacon, no action being taken to erect the monument till his sanction has been obtained. In all other cases the design and inscription must be approved by the minister of the particular denomination to which the deceased belonged. Should there be no resident or visiting minister of that denomination, the inscription and design must be approved by the senior minister belonging to it in the province, &c, if there be none, then by the local Government or Administration. Should a design or inscription be disapproved, it may be referred, if those who are interested desire this, through the ecclesiastical superior of the denomination concerned, to the local Government or Administration for decision. (*Vide* rules 14 to 21 and Part IV of these rules.)

PERSONS WHO MAY CONDUCT INTERMENTS.

RULE 6.—(1) The chaplain will bury Christians of all denominations whose friends desire his services, as laid down in the orders of the Government of India in the Home Department,† No. 159, dated the 6th June 1877, using always the service of the Church of England and the consecrated portion of the cemetery.

† Appendix B.

(2) A portion of every cemetery will be set apart by the orders of Government for use of Roman Catholic congregations, and another portion will be appropriated for the joint use of other Christians whose friends desire that they should be interred otherwise than according to the ritual of either the Church of England or of the Church of Rome, or who cannot legally be so interred.

(3) The unconsecrated portions thus set apart are not to be fenced or walled off from the rest of the cemetery, but simply divided off by a pathway, and they must be added to the existing cemetery or reserved from it. If the existing cemetery be large enough for the wants of the whole Christian community, such portions will be reserved without reference to the fact that the whole enclosure has or has not been consecrated according to the rites of the Church of England. If the cemetery be only large enough for the wants of Christians desiring to be buried with the service of the Church of England such portions will be added. The whole cemetery thus divided is to be surrounded by a wall, to have but one gate of entrance, and to be under the care of the officer specified in rule 1.

RULE 7.—(1) Ministers of all denominations have a right to conduct the service of burial over the body of any deceased member of their respective congregations, who may be buried in any fitting portion of the ground set apart for the denomination to which the deceased belonged. At least six hours' previous notice of the burial should be given by the chaplain or minister of the denomination to which the deceased belonged or, in his absence from the station, by the friends of the deceased, to the chaplain in charge of the burial ground, or, in the absence of the chaplain, to the officer who may be in current charge. The chaplain or officer in current charge of the cemetery should, on receipt of the notice, give the conducting chaplain or minister, or, in his absence, the friends of the deceased, a certificate as to the hour when the funeral may take place. The period herein prescribed may, for special reasons, be shortened, with the permission of the chaplain or officer in charge of the cemetery. Such chaplain or officer will, if he thinks the circumstances of the case demand it, bring the facts to the notice of the local magisterial authorities in time to admit of an order stopping the burial being passed if necessary.

NOTE.—The provisions laid down in this rule apply only to civil funerals. Military funerals are regulated by the orders laid down in Army form A-27.

(2) In the cases in which the deceased was in the military or civil employment of Government and the death occurred in a military station it is the duty of the officer commanding the corps or head of the department concerned to inform the minister of the denomination to which the deceased belonged, of the hour at which the funeral may be expected at the cemetery. This report is to be in addition to that required by rule 7 (1).

(3) A certificate of burial drawn up according to the required form must be sent to the chaplain or to the Registrar of births, deaths and marriages, to be entered in the register kept up by him. The officer commanding the station or regiment or the local head of the department with which the deceased was connected is responsible for the submission of the certificate.

RULE 8.—(1) No burial can, as a general rule, take place in that part of a Government cemetery which has been set apart for the use of members of the Church of England unless the service prescribed by that Church is read by the chaplain, if there be one, or, in his absence, by the layman who officiates at the funeral. But a person may be interred in the other portions of a Government cemetery with or without the use of any services of religion.

(2) Where in that part of a Government cemetery which has been set apart for the use of members of the Church of England there is a family vault or grave, or a reserved plot of ground purchased by a member of the family, or a masonry grave prepared in immediate contiguity to such family vault or grave or reserved plot, any deceased member of a family may, if the relative, friend, or legal representative having charge of the funeral arrangements shall so desire, be interred in such family

vault, grave, or reserved plot without the performance of the service for the burial of the dead according to the rites of the Church of England

(3) The burial may take place at the option of the person having charge of the same either without any religious service or with such Christian and orderly religious service at the grave as such person shall think fit, and any person or persons who shall be thereunto invited, or be authorised by the person having charge of each burial, may conduct such service or take part in any religious service thereat.

APPLICATION FOR ERECTION OF A MONUMENT.

1. A person desiring to erect a monument should submit to the chaplain or other officer in charge of the cemetery an application in the form A (annexed), with a working drawing of the monument drawn to scale.

2. If the proposed monument (*a*) is not a single stone monument as defined in rule 6, or (*b*) is a single stone monument in respect of which exemption from payment of endowment fee is granted by note (2) to this rule, or (*c*) is a single stone monument which it is proposed to endow, the chaplain or other officer in charge of the cemetery will send on the application and the drawing with a forwarding letter (in form B annexed) to the Executive Engineer in charge of the cemetery. The Executive Engineer will examine the proposals, and, if he approves them, will fill in the certificate below the application, examine and countersign the drawing, and return the papers to the chaplain.

If any fragile or costly work liable to receive damage is proposed, the Executive Engineer will not take this into consideration in entering the classification of the monument in column 7 (*b*) of the application, as the repair of such work cannot be undertaken by Government. The Executive Engineer may decline to take over any monument for the purpose of maintenance if he considers that the work is defective from a structural point of view.

If the monument is a single stone monument and is not to be endowed, the chaplain or other officer in charge need not forward the application to the Executive Engineer unless he desires his advice, but may deal with it at once in accordance with rule 3.

NOTES.—(1) No endowment fee shall be levied in respect of monuments erected by British soldiers or non-commissioned officers to their wives, children or comrades or by their wives or children to British soldiers or non-commissioned officers, provided that the monuments are simple crosses, headstones or slabs. Native Christians belonging to His Majesty's Army or British soldiers within the meaning of this note.

(2) The addition of masonry borders round single stone monuments in respect of which exemption from endowment fee is granted by note (1) above will not necessitate the levying of a fee, provided that the borders are kept within reasonable limits, so that the cost of repairs of the monuments is not materially increased.

(3) When a monument is to be placed over a masonry grave any portion of the masonry which projects above the ground level shall be demolished.

3. On return of the papers, duly approved by the Executive Engineer, the chaplain will see that the application in Form A is correctly filled in, sign the memorandum at the foot of the form

* The first year shall be taken to mean any one year indicated by the applicant.

and forward it with the drawing to the Archdeacon. If the deceased belonged to some other denomination than that of the Church of England, the chaplain will obtain a certificate of approval of the design from the minister of the denomination to which the deceased belonged and forward it with the application to the Archdeacon.

4. The Archdeacon will permit the monument to be erected or refuse to do so. If permission is given, the chaplain will advise the applicant of the section in form D (annexed) and instruct him to pay the amount of the endowment calculated as in rule 6 to the executive engineer, who will grant the applicant a receipt in form C (annexed).

5. The chaplain will return the sanctioned application (with enclosures) to the executive engineer for disposal and record. On receiving adequate notice from the applicant (usually not *less* than a week) of the date and hour of erection, the executive engineer will depute a responsible subordinate to supervise the erection of the monument in accordance with the sanctioned design and specification. If it is erected to his satisfaction, the executive engineer will assume charge of the monument for future repairs by the Public Works Department and will issue to the applicant a certificate in form I that the monument has been properly erected. The chaplain will, on receipt from the executive engineer, send in April every year to the Archdeacon a list of the monuments erected and endowed during the year ending March 31st, together with the amounts of the endowment fees.

CLASSES OF MONUMENTS AND AMOUNT OF ENDOWMENT FEES.

6. For the purposes of these rules monuments are classified as follows:—

CLASS A.—*Simple stone monuments.*—Monuments consisting of (*a*) simple crosses or head-stones not exceeding 3 feet in height from the ground level and having the full section of the stone embedded to a depth of no less than 12 inches, in masonry foundations measuring at least 3′ × 2′ in area by 1½ feet in depth, or (*b*) slabs not exceeding 11′ × 7′ in size over unexposed masonry foundations.

CLASS B.—*Plain and solid monuments.*—Monuments, including railings round graves, not falling in class A, which are likely to require only occasional repair.

CLASS C.—*Elaborate monuments.*—Monuments which are likely to require special attention or frequent repair.

The endowment of a monument in class A is optional, and the fee may be paid at any time, either before or after the erection of the monument. Permission will not be given to erect other monuments unless the endowment fee has been paid. The minimum fees are as follows:—

Class of monument.	Endowment fee,		Remarks.
	Child's monument.	Adult's monument.	
	Rs.	Rs.	
A	15	15	(*) A child's monument covering more than 15 square feet is to be charged for as an adult's monument.
B	20 (*), (†)	30 (†)	(†) These are minimum fees, and when they are considered insufficient such fees may be charged as the superintending engineer thinks necessary.
C	50 (*), (†)	75 (†)	

The classification of monuments rests with the executive engineer, but any person who objects to his decision may appeal to the superintending engineer.

No addition to an existing monument in a Government cemetery will be allowed beyond mere lettering on existing slabs, head-stones or crosses, unless the whole monument is endowed.

7. The endowment is intended to cover the expense of ordinary annual maintenance, re-lettering and repairs but not the risk of accidents due to floods or earthquakes or other extraordinary causes. It is open to any person to provide for extraordinary repairs by making a special endowment in addition to the ordinary endowment fixed by the executive or superintending engineer under rule 6. This special endowment must, however, be limited to the amount necessary to cover such work as the Government officers can undertake to execute.

8. When an endowment is paid to the executive engineer, in accordance with rules 4 and 6, the amount must be entered in the divisional cash book as a deposit received and paid into the treasury with a remittance note in the form G (annexed) for credit to the civil department. The executive engineer will forward the treasury officer's receipt with his monthly accounts to the examiner of accounts in support of the debit to "deposits," A note to the effect that this has been done being entered in red ink across the block full of the remittance note.

The examiner will, from these receipts, maintain a register in form H (annexed) showing the endowments for each cemetery in his province. The civil account officer will credit to a head cemetery endowment fund under the major head Savings Bank Deposits—Bank Accounts all sums received on account of these endowments, but will show no details regarding the cemeteries.

After the amount has been paid into the treasury the executive engineer will enter it in the register of endowments, form E (annexed) (Part I).

NOTE.—A clear distinction must be maintained between (1) *ordinary*, and (2) *special* endowments (*vide* rule 7) in all the documents and accounts mentioned in this rule.

9. The executive engineer shall maintain an account of all ordinary and special endowments, form E (annexed) (Part II). A separate ledger account shall be opened in form E (annexed) (Part III) for each monument for which a special endowment exceeding Rs. 25 has been made under rule 7.

NOTE.—The provision as to separate accounts should be applied, as far as possible, to endowments made prior to the issue of these rules.

10. The interest calculated under rule 11 on the deposit shall be used in meeting the expenditure for the repair of those monuments for whose preservation deposits have been made. In no circumstances should the capital sum be applied to meet such expenditure, nor should the interest be separate for each monument. The interest accruing on the deposits shall form a common fund to be used exclusively for the repairs of all endowed tombs; provided that the interests on deposits for which separate accounts are opened under rule 9 shall be used exclusively for the particular monument on account of which the deposit is made.

If a monument becomes so damaged as not to admit of repair, the officer in charge of the cemetery shall communicate with the friends of the deceased or when such communication is not possible, advertise the estimate in the *Gazette of India* and the Gazette of the Province; and if no person will undertake to restore it, the monument shall be treated at the next repairs in such manner as the officer in charge of the cemetery may decide to be necessary for the maintenance of the cemetery in decent order; provided always that any inscribed slab or tablet which formed part of it shall be placed over the grave in simple masonry or be inserted in the wall of the cemetery and shall be carefully preserved.

NOTE.—(1) This rule does not apply to monuments of historical or archæological interest. Lists of such tombs should be obtained by local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department.

(2) The cost of the advertisements in the Gazette is met by the Government.

(3) The State will defray the cost of keeping in repair monuments erected by or over the graves of British soldiers and non-commissioned officers in respect of which exemption from payment of endowment fee is granted by note (1) to rule 2 of this part.

11. Joint estimates shall be framed in October of each year by the executive engineer and the chaplain, or other officer in charge of the cemetery, of the cost of repairs of endowed tombs, during the following official year, and the aggregate of the sums so estimated shall not exceed the estimated interest at 2½ per cent. per annum for ordinary endowments and at 3 per cent. for special endowments made up to the 31st March preceding, *plus* the unspent balance at the end of the previous year. The executive engineer should budget annually for the grant required, such grant should be entered in a lump sum under the head "civil works" without any distinction between ordinary and special endowments.

12. The civil account officer of each province will, in his final accounts for March, debit to 14. Interest, by credit to the Public Works Department the interest at 2½ per cent. per annum for ordinary endowments and at 3 per cent. for special endowments made up to the 31st March. On receipt of the credit the examiner of public works accounts will distribute the amounts between the centres of the provinces and advise the executive engineer concerned of the amounts so credited. On receipt of such intimation the executive engineer will credit the account in his divisional accounts as public works revenue under the head "Interest on endowments for repairs of monuments" and thus fill in the interest columns in form E (Part II).

13. Endowment funds invested in Government securities will be held in trust by the Comptroller-General or the Accountant-General, Bombay as the case may be, on behalf of the examiner of public works accounts concerned, under the rules contained in chapter II of the Civil Account Code. The interest will on realization, be remitted to the examiner and will be credited in his accounts and distributed as provided in rule 12.

ENDOWMENT OF EXISTING MONUMENTS

14. When application is made for the endowment of an existing monument the above procedure should be followed as far as applicable.

15. In order that the local Government or Administration may know that the tombs are kept in proper repair an annual report in form F (appended) should be forwarded as soon as possible after the close of the accounts for a financial year, by the executive engineer with respect to their condition, for each cemetery, to the examiner of public works accounts, who will consolidate the returns so received and render a general return to the local Government or Administration. The account will merely show the totals for each cemetery as taken from executive engineer's accounts.

The reports sent to the examiner should contain remarks, both by the chaplain and executive engineer, as to the state of the tombs for which endowments have been made.

NOTE.—The foregoing rules are applicable to cenotaphs erected in church compounds, but the previous consent of the local Government to the construction of a cenotaph is in every case necessary.

Mountain Battery, Royal Artillery	50	35
Heavy Field Battery, Royal Artillery	45	35
Convalescent depots and miscellaneous detachments, per section of 100 men	45	35

NOTE.—These numbers include soldiers' families.

RULE 7.—Any provision that may be necessary may also be made for staff officers, officers of Indian regiments, and, where no civil church exists, for European British-born subjects in the service of Government, or for railway servants in accordance with the scale and terms hereinafter prescribed for civil and railway stations respectively.

RULE 8.—As a rule, only one Protestant and one Roman Catholic church will be provided; and where the number of sittings required for the troops according to the scale above given is very large, the use of the church may be regulated so as to allow of at least one-half of the troops attending service at one time.

RULE 9.—The Government grants for churches will be calculated on the following basis. The executive engineer shall prepare a ground plan, which shall afford—

(a) accommodation for the total congregation to be provided for according to the scale laid down in rules 6 and 7, and allowing six superficial feet per sitting;

(b) passages, chancel, vestry, porch of such moderate dimensions, as may be reasonable in each case and verandahs where necessary;

(c) tower or belfry, as may be required according to the dimensions, general design, and locality of the building.

The maximum grant will be found by multiplying the cubic content of the approved design by a rate 15 per cent. in excess of the local rate per cubic foot for ordinary first class single-storied buildings of substantial construction, such as court houses.

The cubic content of a building will be arrived at by multiplying the plinth areas of the different parts, such as main rooms, verandahs, tower, etc., by the heights from plinth to roof-level of these parts, and then by adding them together. In the case of a sloping roof the height will be measured to the mean height of the slope.

In addition to the above grant for the main building, the cost within reasonable limits of securing, laying out and enclosing the site, inclusive of roads, culverts, drains, latrines, compound wall, gates, well of an inexpensive kind, and any other subsidiary work which may be considered to be legitimate, may be authorised by the Government of India as a State charge.

CIVIL STATIONS.

RULE 10.—At the chief civil station of a district, where there are at least 25 European British-born subjects (as defined in section 4 (a) of the Criminal Procedure Code, 1898), Protestants or Roman Catholics, as the case may be, in the general service of Government, and, where no suitable church provision for them exists already, the Government will contribute towards church accommodation upon the following terms:—

(1) *Number of sittings required.*	(2) *Maximum Government grant.*
	Rs.
25	2,000
50	3,500
100	5,000
150	6,000
200	7,000
250	8,000
300	9,000
350	10,500
400	12,000
For any excess over 400	Rs. 30 per seat in excess.

NOTE.—(1) When the number of seats to be provided lies between any two numbers given in the table the grant for the portion of the whole number of seats represented by the lower numerical figure in the table will be the grant shown against that figure, the rate per sitting for the next number of seats over such lower figure being arrived at by dividing the difference between the maximum grant shown against the next higher figure and the said lower figure by the difference between the higher and lower figure. Thus for 110 seats the Government grant for 100 seats will be Rs. 5,000 and for the remaining 10 at the rate of $\frac{6,000-5,000}{150-100}$ = Rs. 20 per seat.

(2) As a rule, only one Protestant and one Roman Catholic church will be provided. In the case of Protestant churches accommodation will ordinarily only be provided for the number willing to attend the Church of England service.

(3) In ascertaining the number of seats to be provided, women and children belonging to the families of European British-born subjects in the general service of Government, and pensioned soldiers and their families may be taken into account: two children being counted as one adult.

(4) In cases of stations where abnormal rates prevail, special application may be made to the Government of India for an increase to the grant given by the table, but no grant for more than 250 sittings will be made except at seats of local Governments and Administrations, or at hill sanitaria. In the latter case the number of European British-born subjects in Government service must exceed (without their families) 120 to warrant the grant for a church of greater accommodation than 200 sittings.

RULE 11.—No Government grant for a church in a civil station will be made until private subscriptions have been obtained, and then the grant will not exceed double the amount thus actually realised, the maximum figure in column 2 of the table above being in any case the extreme limit of the grant towards the scale of accommodation which stands opposite in column 1. And in no case will the Government grant be allowed until these contributions, together with the grant, amount to the estimated cost of the church.

RAILWAY STATIONS.

RULE 12.—Whenever there are, at any State railway station or depot, so situated that other church accommodation does not exist or is not available with reasonable convenience, at least 25 persons in the railway service who are of European descent, pure or mixed, retaining European habits and mode of life and professing the Christian religion, whether Protestant or Roman Catholic churches will be provided by the Government for them in accordance with rules 4, 5 and 8; the number of sittings being calculated on the principle, *mentis matandis*, of rule 10, notes (2) and (3), and the grant being in conformity with rule 9.

RULE 13.—Whenever such separate churches are not required, church accommodation for any such persons may be provided in the pews of any church which is about to be erected as a military or civil station; but in the case of a church at a civil station, the restrictions in rule 10, note (4), and in rule 11, shall not apply in respect of the members of, and grants for, such persons.

RULE 14.—In cases where a State railway station or depot is considered by the railway administration to be likely to increase, such addition may be made to the number of sittings, calculated as above provided, as the Railway Department may, in each case, sanction.

NOTE. Rules 12 to 14 apply only to State railways worked by the State and in other cases when the State is in the position of the employer of labour.

RULE 15.—In the case of church accommodation for servants of a railway not worked by State agency and not falling within the note to rule 14, it will be within the discretion of the Board of Directors or other duly empowered representatives of the Company, with the approval of the Government of India, to provide funds for church accommodation under rules 12 to 14. In such cases the sum will be chargeable to the capital or revenue account of the railway as the circumstances of each case may suggest.

GENERAL.

RULE 16.—It is desirable, whenever such a course will not be attended by inconvenience, to combine the civil or railway with the military church of a station, the grant allowed for the church accommodation of the British troops or State railway servants before given being supplemented by a grant according to the scale shown in rules 10 and 11, or 12 to 15, as the case may be. In special cases buildings may be rented for divine service with the previous sanction of the Government of India.

RULE 17.—In addition to church accommodation as above prescribed, a house for the chaukidar or resident bearer may be provided. In cases, however, where the church is distant from the bazar, and where special grounds are shown, accommodation may be provided for other duly authorized servants; but such further accommodation will be limited to shelter for day use only. These houses should, when practicable, be adjoining to, and not within, the church compounds; but when within them, they should be erected in keeping with the other church buildings.

RULE 18.—Grants for ecclesiastical buildings will be sanctioned only by the Government of India in the Public Works Department.

RULE 19.—The scales of accommodation and expense for all churches above laid down are in no case to be exceeded without reference to the Government of India.

RULE 20.—Church accommodation will not usually be provided at the expense of the State for non-official residents, either British born Europeans or others, or for official residents other than British-born or State railway servants.

RULE 21.—When private contributions are combined with a Government grant towards building a church, the procedure to be adopted is as follows:—

(a) (1) Under ordinary circumstances the amount of private contributions being known, a definite design and estimate will be prepared by the executive engineer and submitted for sanction in the usual way, the limit by which the executive engineer will be guided in his designs being the aggregate of the Government grant according to the scales given in the preceding rules, and the amount of private contributions actually realized.

(2) Before the work is commenced, the amount of the private contributions must be paid into a Government treasury, or guaranteed by sufficient security, and credited to credit of deposits in the accounts of the department.

NOTE.—In the case of a grant from the Church Building Fund for the diocese of Calcutta a certificate instead of a cash payment in advance may be accepted, showing the amount of the contribution to be allowed. The conditions on which this certificate may be accepted are that in every case definite arrangements must be made with the local Government or Administration concerned respecting the precise date on which the contribution will be paid and that, until the payment is made, the Government shall have a primary lien on the funds of the Society. In case of any failure paying up the stipulated payment on due date, the privilege herein allowed is to cease.

(3) In dealing with cases of this nature, the private contribution is to be looked upon as an addition to the Government grant, instead of the money allowed from public funds being considered as a grant-in-aid of private contributions, and the responsibility of officers of the Public Works Department or Military Works services with respect to the preparation of estimates, and the construction of such buildings with reference to excess of expenditure over the estimate, will be as strictly enforced as where only public funds are expended.

NOTE.—In the case of State railways, the functions assigned in this and succeeding rules to the executive engineer will devolve on the manager.

(b) (1) In special cases, however the Government grant for a church may, with the sanction of the Government of India, be treated as a grant-in-aid of private contributions raised for a church intended for the use of Government servants with the meaning of these rules or partly for the use of non-official residents or others for whom grants are not admissible under these rules.

(2) In such cases the plans and specifications shall be submitted to the executive engineer for the approval of the proper officers in the Public Works Department or Military Works services, who shall sanction them on satisfying themselves that they are safe and suitable and can be executed for the estimated amount. The construction of the building may then be left to the managers or trustees of the private contributions raised with whom must rest the responsibility for excess, if any, over the amount of the sanctioned estimate. The grant-in-aid will be paid by the civil department on the certificate of the executive engineer—see rule 21 (b)(3) below, and adjusted as a civil charge under the head "33 Ecclesiastical" as stated in rule 1 above.

(3) In such cases the grant will ordinarily not be paid in full by the civil account officer until the executive engineer has certified that the building has been completed in accordance with the sanctioned plans and specifications, and the trust deed referred to in clause (4) below, where required, has been duly executed; but the executive engineer may authorize advances out of the sanctioned grant on receiving sufficient proof that a building is proceeding satisfactorily, and on the managers or trustees certifying that all subscriptions relied on in support of the application for the grant have been paid up in full or guaranteed by sufficient security.

(4) Where a grant is made under clause (b) of this rule for a church intended partly for the use of non-official residents and others for whom grants are not admissible under these rules, there shall be a trust deed duly executed by the Chief Magistrate of the district in which the church is situated and the chaplain and register, declaring that the building is granted in trust for church purposes only; (2) giving to Government a prior lien on the building for the recovery of the grant in the event of the former being diverted to other purposes; (3) providing for the legal ownership of the building; and (4) indicating sufficient sources for its proper maintenance.

RULE 22.—In any case in which a church is built partly from private contributions and partly from a Government grant the Government is entitled at any time to require that a proportion of the seats in the church, not exceeding the proportion which the Government grant bears to the whole expenditure incurred in building the church, shall be reserved for troops and other Government servants who may be allowed free seats under rule 27.

NOTE. This rule does not apply to cases in which passage reduced by the amount of interest calculated at 4 per cent. on the Government grant towards the cost of construction is paid on account of seats used by troops.

RULE 23.—The preceding rules shall apply, as far as may be, to the enlargement of existing churches.

RULE 23-A.—Local Governments including the Director-General of Military Works are authorized to incur, when necessary, expenditure which is in excess of that permissible under, or is not covered by,

the preceding rules, up to a limit of Rs. 500 in each case, on the understanding that this sum represents the maximum aggregate expenditure which may be sanctioned by them for additions and alterations to any one church.

The number and description of the articles to be supplied should be determined by a committee, consisting of the chaplain, the executive engineer and the chief local magistrate. In the case of churches for troops or for State railway servants, the senior military officer, or the manager of the railway, will take the place of the chief local magistrate.

The articles of furniture and service should be of the plainest description unless there is under construction by Government a church for which church furniture and articles of service would have to be supplied under clauses 1, 2, 4 and 5.

Articles supplied for use in temporary churches should be returned into store when the building ceases to be used as church, unless they are required for supply to a permanent church built by Government.

(7) All applications for funds for the supply to Roman Catholic churches of the articles of service mentioned in clause 5 should be submitted through the Roman Catholic Bishop of the diocese in which the church is situated.

(8) The following articles of furniture will be supplied by the Public Works Department for lych-gates of Government cemeteries :—

	Maximum cost. Rs.
Two benches at Rs. 8 each	16

Two chairs at Rs. 5 each	10
A wheeled bier	350

NOTE.—In stations where no hearse or other suitable means of conveyance are available, the use of the bier is permissible for the conveyance of the dead to the cemetery.

(9) While the rates shown in clauses (1), (2), (4), (5) and (8) of this rule should not ordinarily be exceeded, local Governments may sanction excess expenditure on particular articles of furniture, provided that the excess is covered by savings on other articles, the supply of which is admissible under the rules and for which definite rates have been fixed.

RULE 25.—The executive engineer will be guided, in granting the certificate alluded to in clause 2 and 5 of rule 24, by the following principles :—

Class I, churches built by Government.—The certificate should state that the church was built by Government for the use of European troops or European British-born subjects in the service of Government, or of State railway servants, and is still maintained for the same purpose.

Class II, churches which have received building grants from Government.—The certificate should state that the church received a building grant of Rs.——, equal to the——part of the total cost of the building, and that the grant was made on account of European troops or European British-born subjects in the service of Government or of state railway servants, and that the building is still used by them.

For this class of churches a proportion of the standard cost of the articles of service will be sanctioned equal to the proportion of the grant-in-aid to the total cost of the building itself.

Class III churches rented by Government and Government buildings temporarily set apart as churches.—The certificate should state that the building is wholly rented by Government or is a Government building temporarily set apart as a church for the use of European troops or European British-born subjects in the service of Government, or of State railway servants.

NOTE.—The required certificates should afford information as to when the article was originally supplied and by whom, and the reason for recommending its renewal. When, however, Government pay for the use of a certain varying number of seats in a church, the hire of the seats should include everything necessary for the performance of service.

RULE 26.—When a church, whether Protestant or Roman Catholic, is to be furnished, the executive engineer should communicate with the ecclesiastical authorities concerned with a view to afford the congregation an opportunity of furnishing the church by private subscriptions in more costly style, should they wish to do so. It is to be understood, however, that any article of furniture to which any public funds may have been applied will remain the sole property of Government, even though a portion of its cost may have been contributed by private persons. And in cases where articles of furniture are purchased from England, they should be purchased through the Secretary of State in the ordinary way, with the exception of articles to which note 1 to clause (2) of rule 24 applies, which may be purchased as therein allowed.

In cases in which articles of furniture supplied wholly or in part from Government funds are considered to have become obsolete or unsuitable, though not necessarily unserviceable, they may, with the previous approval of the local Government, be sold and the sale-proceeds utilized towards the cost of replacing them, provided always that sufficient private subscriptions are forthcoming to ensure the replacement of the old articles by new ones of greater value or more appropriate design.

RULE 27.—Government will not ordinarily undertake the cost of the renewal and repair of furniture and articles of service in churches, which are not primarily intended for the accommodation of troops. Where pew rents are charged, the cost of such renewals and repairs will be met from the pew rent fund; where pew rents are not charged, it is expected that the cost will be met from contributions by private persons and members of the congregation. In churches in which a part or all of the seats are actually reserved by Government for troops or other Government servants entitled to free seats, the Government will pay a share of the cost of renewals and repairs equal to the proportion which the number of seats so reserved bears to the whole number of seats in the church. Seats will be reserved by Government under this rule only for troops and military officers on duty with troops, and for such Government servants of the classes described in rule 10, and State railway servants of the classes described in rule 12, as cannot afford to pay for seats. But all Government servants (other than troops and military officers on duty with them), who are in a position to pay for seats, will be liable to be charged pew rents.

RULE 28.—In cases in which articles of furniture belonging to a Government church are stolen, an immediate enquiry should be held in view to ascertaining whether the loss was caused through the negligence of the person responsible for the custody of such furniture. In the case of Protestant churches at civil or railway stations, the enquiry should be conducted by the chaplain and the members of the church committee; and in the case of Roman Catholic churches at such stations, by the chaplain in charge and such of civil officer of the place, or such other person or persons as the chief civil officer may nominate for that purpose. As regards Protestant and Roman Catholic churches in cantonments, the investigation should be made by a committee assembled under the orders of the officer commanding, as in the case in respect of all other enquiries into loss of Government property, the chaplain in charge being invited either to be a member of the committee or to give evidence before it.

(2) If the result of the enquiry should be to show that the loss was occasioned by negligence on the part of the person responsible for the custody of the furniture, such person should, if possible, be required to make good the loss; or if it should appear that the loss was due to circumstances beyond the control of the responsible officer, then the Government of India will be prepared to consider an application for the replacement, at the public expense, of the articles stolen. Such application should be submitted through the ordinary channels, and should be accompanied by a full report of the enquiry.

RULE 29.—The care of church clocks is to be charged against the pew rent fund, where it exists. Where no such fund exists, the cost of maintaining the clocks will be borne by Government.

RULE 30.—The pay of churchdars of churches will be disbursed through chaplains.

RULE 31.—Anglican and Roman Catholic churches are under the control of the Bishop of the diocese in respect to the erection of tablets, ornaments, etc., while in course of construction, as well as after completion and consecration.

OWNERSHIP AND REPAIR OF CHURCHES.

RULE 32.—All churches built under these rules, except rule 21, clause (2), shall be considered the property of Government.

As a general rule all churches, whether Protestant or Roman Catholic, which have in past times been built by Government, are the property of Government.

Churches whether built wholly by private contributions or by such contributions jointly with State grants, which have been borne for a series of years on the books of the Public Works Department or Military Works Services and have been repaired and otherwise dealt with unchallenged, as Government buildings, shall be deemed to be the property of Government.

Churches built wholly or in part by private contributions which have not been so borne, repaired or dealt with, but which may be taken over on behalf of Government, under sanction of competent

authority, shall be brought on the books of the Public Works Department or Military Works Services as the property of Government

RULE 33.—All churches which are the property of Government shall be in charge of the executive engineer, and shall be repaired under the ordinary rules of the Public Works Department.

In every case in which any alteration in a church belonging to Government, which affects its structure or its permanent fittings, may be desired by the chaplain or other clergy, the executive engineer must be consulted and his consent obtained in writing before the alteration is carried out.

COMPENSATION FOR ACCOMMODATION IN CHURCHES NEITHER BELONGING TO NOR RENTED BY GOVERNMENT.

RULE 34.—The rate of compensation for sittings for Protestant and Roman Catholic soldiers is fixed at Rs. 7 per seat per annum. Broken periods within the year shall be counted as a year; but when sittings are occupied consecutively for any period exceeding twelve months, payment will be made for the number of months in excess of the year, for which the sittings are so occupied, at the rate fixed for the year.

NOTE 1.—The payment should, as far as possible, be regulated by the official year.

NOTE 2.—Whenever a church has been built with the aid of a grant from Government under rule 21 (b), the powers otherwise admissible for seats occupied in that church will be reduced by the amount of interest calculated at 4 per cent on the sum contributed by Government towards the cost of its construction.

RULE 35.—The number of sittings for which compensation is allowed will be regulated by the highest attendance at a parade service during the year of soldiers and their families (two children up to the age of 14 being counted as one adult) actually quartered in the station, subject to the following maximum limits:—

Unit.	Church of England, Church of Scotland and other Protestant denominations recognised by the Government of India.	Roman Catholics.
Battalion of British Infantry	450	340
Head quarters Wing, British Infantry	250	190
Detached Wing, British Infantry	200	150
Regiment of British Cavalry	275	210
Battery of Royal Horse or Field Artillery	70	55
Garrison Company, Royal Artillery	65	50
Mountain Battery, Royal Artillery	50	35
Heavy Field Battery, Royal Artillery	45	35
Convalescent depots and miscellaneous detachments, per section of 100 men	45	35

NOTE.—These numbers include soldiers' families.

RULE 36.—Compensation may be charged for sittings provided for British-born commissioned and non-commissioned officers (including families) employed on the staff or with Indian regiments, in addition to the number of sittings for which compensation is admissible under rule 35.

RULE 37.—Compensation may, under the conditions of rule 34, be paid for Protestant or Roman Catholic State railway servants for who a church accommodation has not been provided by Government; the number of sittings for which compensation may be allowed being regulated by the highest attendance on any one occasion during the year of railway servants and their families (two children up to 14 being taken as one adult) who are of European descent, pure or mixed, retaining European habits and modes of life and professing the Christian religion.

RULE 38.—Local Governments and Administrations are authorised to sanction the payment of compensation for sittings on the condition that the rules are strictly observed, and that all cases in which the application of the rules is doubtful are submitted for the orders of the Government of India. Applications for compensation must be supported by a certificate from the officer commanding the station or the manager of the railway of the number of soldiers or State railway servants, and their families for whom accommodation has been obtained under rules 35, 36 and 37.

RULE 39.—The outlay will appear in the departmental budget estimates and accounts under head of Civil Buildings—Repairs.

(a) In the case of all expenditure, connected with establishments, e.g., pay of servants; alterations in their pay or number, etc.; also all expenditure by Government connected with the provision of articles of church furniture supplied by the civil department. — By the chief magistrate of the district and by the chaplain.

Funds for the above will be provided by the Civil Department.

(Financial Department Resolution No. 67, dated the 9th January 1875, No. 2824, dated the 31st March 1876; and No. 675, dated the 9th February 1876).

(b) In the case of all expenditure connected, with (a) repairs and additions to church fabric, to church compound or cemetery walls, to church or cemetery gates, wells, chaukidars or other church servants' houses (b) provision of necessary appliances for graves or for the repair of tombs or for the planting of trees and shrubs in cemeteries and keeping the same in decent order; also all expenditure by Government connected with the provision of articles of church furniture supplied by the Public Works Department — By the executive engineer and by the chaplain.

Funds for the above will be provided by the Public Works Department.

The estimates of expenditure to be prepared by the executive engineer and the chaplain should show distinctly the probable charge under each of the following heads:—

(I) New works connected with additions to existing churches and improvements to Church compound.

(II) New supplies of furniture for churches and sanctioned articles of church use.

(III) New works connected with additions to existing burial-grounds.

(IV) Repairs to churches and church furniture and maintenance of church compound.

(V) Repairs to burial-grounds to be executed by Public Works officers.

(VI) Repairs to burial-grounds, including planting and cleaning, to be entrusted to the chaplain or chief civil or military officer of the station or cantonment, under paragraph 4.

It would be convenient if distinct estimates were prepared for each of these classes of expenditure.

The provision of funds to meet the charges above enumerated will be made in the budget estimate of the Public Works Department. The estimates for the same will be subject to the scrutiny of, and be passed by, the superintending or chief engineer or local Government or Administration, according to the rules in force in the Public Works Department.

The incidence of cost of burial-grounds is given in Volume I, paragraph 883 of the Public Works Department Code, and provision will accordingly be made for such charges in the Imperial or Provincial Budget Estimates as the case may be.

2. The following scale of establishments should be maintained at all cemeteries —

(I) For a cemetery of which the area is 5 acres or less, one mali-chaukidar;

(II) For a cemetery of which the area is more than 5 and less than 10 acres, one mali-chaukidar and one assistant coolie;

(III) For a cemetery of which the area is more than 10 and less than 15 acres, one mali-chaukidar and two assistant coolies; and

(IV) For a cemetery of which the area is more than 15 acres, one mali-chaukidar and three assistant coolies.

Where the above scale of establishment is considered insufficient for preserving a cemetery in decent order the local Government may, subject to the ordinary rules regulating its financial powers, sanction the employment (permanent or temporary) of an additional assistant coolie in each of the cases mentioned above.

It is left to the local Governments and Administrations to determine the proper wages to be given to each servant. *The charge will be included in the Civil Budget Estimate under Imperial or Provincial, as the case may be*

* * * * *

4. No portion of the receipts from cemeteries and church compounds should be retained by any Government officer to be directly expended by himself; all such receipts should be paid into the civil treasury to the credit of Government under "XXXI—Civil Works," Imperial or Provincial, as the case may be. But the amount passed upon the joint estimate framed by the executive engineer and chaplain to provide for planting a cemetery and preserving it in decent† order should be entrusted to the chaplain where there is one. Where there is no resident chaplain, the amount should be placed at the disposal of the chief magistrate on the spot, or of the senior military officer if the cemetery is attached to a military cantonment. The necessary funds for the purpose will be advanced by the executive engineer concerned to the chaplain or civil or military officer. Bills for the expenditure

* The estimates should be for the financial year, and should be prepared in advance as is prescribed for other budget estimates.

NOTE.—Modifications of the original orders are shown in italics.

† NOTE.—The term 'decent order' means that Government will provide for the ordinary planting of trees and shrubs and their upkeep including reasonable expenditure on watering [including, when necessary, the employment of bullocks and attendants], necessary implements and plants. The outlay on operations having a further object the commemoration of embellishment of cemeteries or the maintenance of a high standard of gardening should be met otherwise than from State Funds.

should be rendered by the officer to whom the advance has been made, either monthly or otherwise, to the executive engineer, who will charge for the amount thereof in the usual way in his accounts. Until the bills are received and charged off, the advance will be placed in the miscellaneous advance account of the executive engineer. All planting of shrubs and trees * by private persons in cemeteries should be under the control of the chaplain if resident, otherwise under that of the magistrate or senior military officer, as the case may be. When practicable, a well should be sunk in or near every cemetery.

* * * * * *

5. It should be understood that the Government cannot provide cemeteries at the public expense for native Christian communities.

NOTE.—Where their number is small the question is of little importance and is best arranged by mutual concessions or by special provisions made locally by the parties immediately concerned.

Letter No. 344, dated the 9th November 1877

And I am to suggest for His Lordship's consideration whether, if the necessity of dealing at the present time with this matter of native Christian interment be in his judgment considerably established, it should not be carefully examined in consultation with the several local Governments, having regard to the diverse needs and circumstances of the population in each separate province

RESOLUTION.—After consultation with the several local Governments and Administrations it was decided in February 1875 to reduce the cost of church establishment in India. To carry out this decision, the scale of charges (shown in the margin) was fixed for general adoption, with the reservation that in some places somewhat higher charges might be allowed under exceptional circumstances; and that in the case of third class (non-military) churches, with fluctuating and very limited congregations, a moderate fixed allowance might be granted for lighting and sacramental elements. In accordance with this decision, the several local Governments and Administrations were requested to submit a fresh classification of military churches, and a scale of charges in accordance with the principles thus laid down.

2. After consideration of the reports called for, the Governor-General in Council is pleased to pass the following orders.

3. If a clerk is now employed in any second class military church he need not be dismissed; the full reduction of the establishment must await the occurrence of a vacancy.

4. In Madras, including Mysore, but excluding Berar, there are 56 churches † and the cost of establishments on the scale laid down by the Government of India would amount to Rs. 700 a month as against a present charge of Rs. 1,917. The Government of Madras recommend, however, that the pay of chaukidar-bearers be fixed at Rs. 7 instead of Rs. 8 each a month; that an establishment of Rs. 47 a month be allowed in the church at Black Town; and that to five of the remaining thirty-six third class non-military churches, the marginally-noted ‡ special allowances be allowed. These proposals are approved with effect from 1st April 1877. A tabular statement showing the financial results of the measure, and including, as a temporary charge, the pay of such clerks, as are now on the establishments of the 2nd class military churches, should be forwarded for formal sanction.

Home Department letter to the Venble the Archdeacon of Calcutta, No 119, dated 22nd May 1883.

(1) That the chaplain is required to obtain the permission of the officer commanding the station before ordering a tree to be cut down in a cemetery or church compound situated within the limits of a cantonment;

(2) That the officer commanding the station may order a tree to be cut down in the cemetery or church compound without the chaplain's consent;

(3) that it rests with the chaplain to sell the trees cut down in the cemetery or church compound, the proceeds being paid in, as required by the standing rules, to the civil treasury to the credit of the Public Works Department; and

(4) That the consent of the Cantonment authorities should be obtained in respect of all repairs or alterations over which they may exercise control under Chapter VII of the Cantonment Code, 1912.

Home Department letter to Venble the Archdeacon of Calcutta, No 145 dated the 24th June 1884.

Thus orders, however, do not interfere with the duty of the chaplain to see that the cemetery is kept clean of rank vegetation, shrubs, and undergrowth which are not included under the designation of trees.

* In regard to churches and cemeteries situated within the limits of a military cantonment the Government of India have decided—

5. The Government of Bombay proposes (1) to raise the pay of chaukidar-bearers; (2) to allow a peon to each chaplain; (3) to retain clerks for second class military churches; (4) to do away with water-carriers and sweepers, and provide for the duties from the contingent allowance of Rs. 20 a month for lighting for first class churches; and (5) to allow a small contingent allowance to poor third class non-military churches. The tabular statement submitted by the Bombay Government also shows other variations from the standard scale fixed in 1875. The Governor-General in Council regrets that he is unable to sanction peons for chaplains in Bombay; but he is pleased to sanction the following scale for adoption in the Bombay presidency from 1st April 1877, with a request that a tabular statement showing the charges now made may be forwarded to Government for communication to the audit department.

B.—A list of the poorer churches, for which a special contingent allowance is asked should be entered in the tabular statement.

6. The proposal of the Government of Bengal in respect to the six military (1st class) churches, including the two within Fort William, for which the authorised allowance of Rs. 47 a month is considered to be sufficient, is sanctioned with effect from the 1st April 1876; Rs. 100 a month is also allowed for each of the four (3rd class) non-military presidency churches*, from 1st April 1877, for two years, subject to reconsideration at the end of that period; and an allowance of Rs. 65 a month is sanctioned for St. Stephen's church, Kidderpore, and the church at Howrah, on the same terms. Considering the peculiar character of St. Andrew's kirk in Calcutta and its use by the military, the recommendation of the Reverend Mr. Thomson for an allowance of Rs. 100 when there are two chaplains, and Rs. 185 a month when there is one, is approved from the same date. The necessity for so large an allowance as ½ Rs. 32 a month for the care of the clock must be further established. The entire services of a competent native match could probably be secured for a much smaller sum.

7. In respect to the non-military (3rd class) churches in Bengal the Governor General in Council considers that the scale laid down in February 1875 should be more closely adhered to than is proposed by the Government of Bengal. The exceptional allowances there contemplated were intended only for churches with *fluctuating and limited congregations* and not for general adoption. The churches at Dacca, Cuttack, Berhampur, and other places do not appear to be of this class. His Excellency in Council desires, therefore that the Government of Bengal will submit a tabular statement more in accordance with the scale laid down in February 1875, and showing the financial results of the arrangements now sanctioned for church establishments in Bengal.

8. The classification of churches, submitted by the Government of the North-Western Provinces, shows that there are 36‡ churches, the proposed cost for the establishment of which is Rs 670. But it appears doubtful if this classification includes the Episcopalian and Presbyterian churches at Allahabad. This should now be made clear; and the church at Chunar should be ranked as a third class (non-military) church, and not as a second class military church. The usual tabular statement should also be submitted showing the financial result of the changes now authorised with effect from the beginning of the next financial year.

‡ 7 (1st class military, including three Roman Catholic churches);
16 (2nd class) military, including three Roman Catholic churches; and
15 (3rd class) non-military churches.

9. There are 48 churches in the Punjab, and the cost of the establishments proposed for them is Rs 878 a month. It is also recommended that Rs. 50 a month may be placed at the disposal of the Government of the Punjab for allotments when necessary, to the poorer third class (non-military) churches. The proposals of the Government of the Punjab are sanctioned with effect from 1st April 1877. The usual tabular statement should be submitted.

10. There are 15 churches in the Central Provinces, the cost of the establishments of which is Rs. 205 a month. Revised establishments as shown below are sanctioned for these churches, resulting in an increase of Rs. 17 a month over the existing charge.

11. The Chief Commissioner of British Burma submits a list of church establishments in that province, and recommends "that the establishments should be restricted to the scale fixed by the Government of India; but that the rates of pay should be in accordance with those which are customary throughout Burma, where the cost of living is greatly in excess of that of India". He also recommends that an allowance of Rs. 30 a month may be granted to the Roman Catholic Church at Thayetmyo. In accordance with these recommendations the establishments noted below, which are in conformity with the scale laid down in February 1875, are sanctioned for the churches in British Burma with effect from 1st April 1877 :—

12. In addition to the higher rates of pay for chaukidar-bearers on account of the prevalent wages in the Hyderabad Assigned Districts, the Resident at Hyderabad proposes to add 8 peons at a cost of Rs. 16 a month to the authorised scale of church establishments. The Governor-General in Council regrets that he is unable to depart from the scale already fixed, but is pleased to sanction the other proposals as shown below from the beginning of the financial year :—

13. The list submitted by the Chief Commissioner of Oudh shows that there are only six churches in Oudh—three of the 1st and three of the 2nd class. The proposed classification of these churches is approved, with effect from 1st April 1877, with a request that a tabular statement may now be forwarded.

14. The Chief Commissioner of Assam states that there are in Assam six 3rd class non-military churches, and proposes to pay the chaukidar-bearers at Rs. 10 each a month, remarking that "this is the lowest salary on which a servant can be entertained to perform the above duties in this province." The Governor-General in Council sanctions a chaukidar-bearer for each of the churches in Assam on the pay of Rs. 6 each a month from 1st April 1877, and requests that the usual tabular statement may now be forwarded.

NOTE I.—The Government of India authorise local Governments and administrations to sanction higher rates of pay for church establishments, when the rates fixed in the above resolution are clearly inadequate.

NOTE II.—Roman Catholic churches or chapels, which are the property of Government and which do not receive the allowances for establishment, lighting, etc., admissible under Army Regulations, India, Volume I, Article 385, are entitled to receive the allowances set forth in the Finance Department Resolution No. 2202 of the 18th August 1876.

* Till vacancy occurs.

NOTE III.—When a first class church receives only an allowance of Rs. 23 a month under the military rules referred to in note II, it is entitled also to an allowance of Rs. 24 a month from civil funds, which may be paid to the Chaplain or priest in charge of the church.

RESOLUTION.—Sanctioned. For the future the President in Council is pleased to empower local Governments to sanction church establishments within the limits fixed in Financial resolution No. 2202, dated 15th August 1876 without reference to the Government of India, on the understanding that charges thus sanctioned will be entered in the monthly statements of charges locally sanctioned.

With reference to the correspondence ending with your letter, dated the 29th November last, No 249, regarding the establishment at St. Thomas' Cathedral, Bombay, I am directed to observe that it appears from the papers submitted that the cost of the cathedral establishment and contingent charges amounts to Rs. 1,084 per mensem, and that the trustees of the cathedral object to any reduction being made, holding that under the trust deed they have an indefeasible right to claim from Government both establishment and contingent charges on the existing scale.

2. The Governor-General in Council does not admit that the trustees alone have the power to decide the question at issue, but His Excellency in Council does not desire to press the matter, and leaves it to be settled by the Bombay Government on the most favourable terms which may be found possible.

Office memorandum from the Military to the Home Department (Ecclesiastical), No. 1813-S. D., dated the 17th October 1881, proposing a general rule to regulate the incidence of charges on account of clerical and menial establishments for religious services in connection with the troops.

The undersigned is desired to acknowledge the receipt of the docket from the Home Department, No 75, dated 5th May 1881, on the subject of the provision of a clerical and menial establishment for Presbyterian religious service in connection with troops. The case in point is that of the 72nd Highlanders.

2. In reply he is to forward the correspondence marginally noted, and to suggest that as in regard to the general question) there would seem to be some doubt as to the proper incidence of charges on account of such establishment, the present opportunity be taken to settle the question finally.

From the Adjutant General in India, No. 2793-E., dated the 26th June 1881.

From the Controller of Military Accounts, Bengal, No. 10847.

3. The present rule as regards chaplains is understood to be as follows, *viz.*—

The Church of England chaplains and the church establishments are paid in the civil department, even though employed in a cantonment solely for the use of the troops.

The pay of the Roman Catholic chaplains and of the Chapel establishments engaged in the service of the troops is borne by the Military Department.

The pay of Presbyterian chaplains and of the church establishments at ordinary stations is borne by the civil department, but the pay of Presbyterian chaplains with Highland regiments is a military charge.

4 It seems, therefore, to the Military Department right that the charge on account of establishments for the church services of Highland regiments should also be a military charge, when the chapl in employed in the services is paid by the Military Department, and that in all other cases where there is a service performed for Presbyterian troops by a civil Presbyterian, Wesleyan or other chaplain, the charge for his services and any temporary establishment should be borne by the civil department.

5. The Military Department considers that the above would be a clearly defined rule which would prevent the mistakes which appear to have been made on more than one occasion in regard to the debit of such charges, and the undersigned is to recommend its adoption to the Home Department.

RESOLUTION.—The rule proposed in paragraph 4 is sanctioned.

APPENDIX B.

Home Department Resolution Nos. 2—275 to 287 (Ecclesiastical), dated Simla, the 8th September 1875.

Read the undermentioned correspondence relative to a proposed revision of the rules at present in force for the guidance of chaplains of the Church of England in regard to the burial of such persons as have laid violent hands upon themselves; and if those who having been members of the Roman Catholic church, have been refused burial by the priests of that church:—

From the Government of Fort St. George, No. 142, dated 12th June 1874, and No. 203, dated 28th August 1874.

To the Solicitor to Government, No. 327, dated 22nd September 1874.

From the Solicitor to Government, No. 2419, dated 26th September 1874.

From the Lord Bishop of Calcutta, dated 13th January 1875.

RESOLUTION.—The first question was raised by the refusal of the Reverend C. H. Deane, Chaplain of Bangalore, to read the funeral service over a person who was found by a court of inquest to have committed suicide while in a state of temporary insanity.

2. The subjoined letter* from the Reverend C. H. Deane sets forth the ground of his refusal:

* To Mr. Knox, dated 2nd January 1874.

"When I answered your memorandum about the interment of the remains of the late Sergeant Spiers of the 18th Hussars, I was not aware that he had committed suicide. If, as I understand, there is no doubt that he poisoned himself, I regret to say that I shall not be able to officiate at his funeral. The Rubric before the burial service distinctly forbids it to be used for any that 'have laid violent hands upon themselves,' so that I have no option in the matter. The grave will be ready at 5 P.M., but no service can be used."

3. The view taken of the question by the Right Reverend the Bishop of Madras is stated in the subjoined letter.†

† To the Chief Secretary to the Government of Fort St. George, No. 482, dated 24th March 1874.

"I am directed by the Right Reverend the Bishop of Madras to acknowledge your communication of the 17th ultimo, forwarding copy of a letter from the Deputy Adjutant-General transmitting correspondence relative to the Reverend C. H. Deane's refusal to read the funeral service over the late Sergeant Spiers, 18th Hussars, who committed suicide.

"2 In reply I am desired to state that Mr. Deane seems to have been requested to perform the funeral without having been furnished with the customary death report or any intimation that it was a case of suicide.

"3 The coroner's warrant in itself appears to be 'no more than a certificate that the body is not demanded by the law, and that therefore the relations may dispose of it as they please.'—(Wheatley on the Book of Common Prayer.) It does not, therefore, indicate the duty of a clergyman, or place him under legal obligation to give to a body Christian burial.

"4. In keeping with this view, the Government notification in *Fort St. George Gazette*, June 11th 1850, page 623, when it intimates that 'the Reverend chaplains will in future consider the warrant of the coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the burial service over it,' adds, 'if it would be their duty, under ordinary circumstances to perform that service.'

"5. What is the duty of a clergyman when requested to bury a person who has committed suicide is to be ascertained partly from the Rubrics of our church, which are binding upon the clergy and have the force of law, and partly from the traditions of recognised legal commentators.

"6. The Rubric at the opening of 'the order for the burial of the dead forbids a clergyman to use that service for any that have laid violent hands upon themselves.'

"7. In Burn's 'Ecclesiastical Law' it is laid down: 'Of this sort [suicide] are to be understood not all who have procured death unto themselves, but who have done it voluntarily, and consequently have died in the commission of a mortal sin; and not idiots, lunatics, or persons otherwise of insane mind.'

"8. In the same book it is also stated that 'the jury or judges whether persons who died of their own hands were out of their senses, are doubtless the coroner's jury.'

"9. In the case under consideration it appears that the Reverend Mr. Deane having regard only to the Rubric and *jure conscientiæ* accounting himself responsible for the interpretation of it, refused to bury the corpse even when he knew that the coroner's jury had returned a verdict of 'temporary insanity.'

"10. In this refusal, I am instructed to state that Mr. Deane has not, so far as the Bishop can ascertain, violated any law, but he has departed from a recognised custom in not accepting the verdict of the coroner's jury as a justification for the using of the church's service over the remains of Sergeant Spiers.

"11. Mr. Cripps, in his 'Practical Treatise on the law relating to the Church and the Clergy' [Ed. 1869] ‡ states: 'No case appears ever to have occurred in which a clergyman who has refused to bury the corpse of one who has committed suicide in insanity has been punished by the Ecclesiastical Law.' At the same time he adds: 'It must be

‡ Page 293.

doubtful whether a departure from a custom of such acknowledged propriety would not be visited with ecclesiastical punishment.'

"12. In the absence of any court competent to visit with ecclesiastical punishment, the Bishop desires me to point out that it is very painful to a laborious and conscientious clergyman, such as Mr Deane is, to deny the last offices of the church to one who has been under his spiritual charge; and it must, the Bishop thinks, be allowed that there was much in the circumstances of the present case to support the conclusion at which Mr Deane arrived. I am therefore directed to say that His Lordship is disposed to take a lenient view of Mr. Deane's action, and the more so as to those who are endeavouring to check the prevalence of intemperance in the army can ill-afford to lose any aid which a clergyman in the honest discharge of his duty can lawfully render."

4 The Government of Madras referred the whole correspondence for the information and orders of the Government of India.

5. The following brief statement of the English Law will be found sufficient for the present purpose:—By Common Law Christian persons are entitled to burial with the rites of the church. The Statutes passed from time to time for the uniformity of public worship have proceeded upon, though not expressly dealing with this state of things. The 68th of the Canons of 1603 recognises it and enjoins the clergy to act upon it. In that Canon occurs the exception of persons excommunicated for some grievous and notorious crime, and of whose repentance no testimony could be given. The Canons of 1603 are no part of the Statute Law, and it is only in a qualified sense that they are part of the law at all. But this Canon has been taken as truly expressing the ancient Common Law of the Church. The Books of Common Prayer have been embodied into the Statute Law by the various Acts of Uniformity, and Rubrics are authoritative guides when they speak on the question when the services are or are not to be used.

6 Down to the year 1861 there was no Rubric forbidding the performance of the burial service over any persons except persons excommunicated. The Rubric now in force was framed in the year 1662 and received the force of law from the Uniformity Act of 1662. It prescribes that "the office is not to be used for persons unbaptised or excommunicated, or who have laid violent hands on themselves."

7. The question now is whether the expression "have laid violent hands on themselves" includes all who have committed the overt act of suicide, or only those who have done so deliberately being in their sound senses and in a state in which moral responsibility attaches to them.

8. In Mr. Crimp's[1] Treatise the following statement is made:—

"The common practice, however, so far as it has been able to be ascertained is in accordance with the reasoning and opinion of Dr. Burn, and it must be doubtful whether a departure from a custom of such acknowledged propriety would not be visited with ecclesiastical punishment."

9. The opinion of Dr. Burn will be found in his work on Ecclesiastical Law, Volume I, page 265. After referring to the ancient Canon which forbade Christian burial to those who violently put themselves to death, and stating that this rule was understood to apply to those who did the act voluntarily, Dr. Burn intimates that the Rubric should not be construed as severer than the preceding Ecclesiastical Law, and therefore should not apply to persons of insane mind.

10. In the year 1809 the Court of Arches, speaking of the treatment of suicides, put it on the ground that they are supposed to die in the commission of mortal sin, and to have renounced Christianity. *Kemp* versus *Wicks*, 3 Phillimore, pages 272, 273.

11. The Government of India have not been referred to, and do not know of any authority for holding that the words of the Rubric apply to persons who are not responsible for their actions. It is certain that the practice has not been to apply these words in that way.

12. Under the circumstances the Governor-General in Council comes to the following conclusions:—

(a) It is reasonable in this matter to regulate the conduct of clergymen of the Church of England, who serve the Government of India, by the law and practice of the Church of England.

(b) There is no authority for holding that the Rubric under consideration applies to those who have caused their own death when in a state of mental insanity. For holding the contrary there is the authority of commentators and of judicial *dicta*. There is also the much greater authority derived from a usage which is very wide-spread and long continued, if indeed it is not quite unbroken. Testing the question by reason, it is only reasonable to hold that the framers of this Rubric did not intend as regards the burial of suicides to alter the law and practice that they found in existence or to visit with what must be considered as an ecclesiastical penalty, an act for which the doer is not responsible.

(c) Sincere respect is due to the scruples felt by conscientious men in performing a service of extreme solemnity. Nevertheless, it would not be reasonable that such scruples should prevail against the ancient law and practice of the Church of England which has been handed down to the present time, and which plainly authorises the use of the burial service over persons who have caused their own death while in a state of insanity.

"(d) *In such cases when the burial service is required to be read, the chaplain of the station should, at the time that the services are performed, be furnished with a certificate under the hand of the District Magistrate or in his absence the Magistrate of the next highest rank present to the effect that he is satisfied that the deceased committed suicide while in a state of insanity. On receipt of such a certificate the chaplain will be bound to read the burial service.*"

13. The Governor-General in Council must therefore require from all clergymen connected with the Government their conformity to this ruling.

14 The next point for consideration is the rule requiring chaplains to read the funeral service over the bodies of persons who, having died in the profession of the Roman Catholic faith have been refused burial by the priests of that church. It is stated by the Bishops of Calcutta and Madras that the clergy of the Church of England look upon the rule as bearing hardly upon them, and they desire to have it reconsidered.

NOTE.—Modifications of the original orders is shown in Italics.

15. This rule was laid down in the year 1855 under the belief that the case was governed by positive law, viz., the 68th of the Canons of 1603. But on reconsideration of the matter the Governor General in Council is of opinion—*1st*, that the Canon in question which is founded on the English parochial system cannot for the purposes now under consideration be applied to the very different circumstances of an Indian station; and *2ndly*, that even if it were applicable, it would not prevent the Government from establishing a different rule of conduct for Indian chaplains if found expedient.

16. The Governor-General in Council further thinks that for the case now under review a different rule is expedient. The chaplain of an Indian station does not stand to the residents in the station in the relation which the parson of an English parish bears to his parishioners. It was expressly so ruled by the Court of Directors in their despatch on the subject bearing date the 10th October 1844. Chaplains have been ordered to abstain from endeavours to influence the religious tenets of Roman Catholic soldiers, and in one case a chaplain was compelled to resign the service for persisting in such endeavours.

17. As regards the chaplains themselves, it does not seem consistent that they should be compelled to perform duties towards the corpse of a man whom when living they were forbidden to approach in any pastoral relation and the Governor-General in Council admits that the dissatisfaction which the chaplains have felt with the order of 1855 rests on reasonable grounds.

18. As regards other persons, it can hardly be agreeable to the feelings of either Protestants or Roman Catholics that the chaplains should be called in to supply a service which the priest has refused. To Protestants it must seem that in so acting their church is lax and careless about the performance of its solemn rites. To Roman Catholics it can hardly be otherwise than offensive that a stranger, who in their eyes has no authority, should effect to give to a member of their church what the recognised authority, of that church has the right fitly to withhold. And neither commonly care much on account of any advantage to the dead man; not Protestants because the whole notion of such an advantage is contrary to their tenets; and not Roman Catholics, because they do not attribute any spiritual character to the chaplain.

19. For the above reasons the Governor-General in Council is pleased to revoke the order issued in the year 1855, and he will request the military authorities to make arrangements for the decent burial of Roman Catholic soldiers to whom the rites of their church have been refused by the priests.

Office memorandum from the Military Department, No. 810, dated the 16th November 1875, forwarding, for an expression of opinion, a draft General Order which His Excellency the Commander-in-Chief proposes to issue on the subject in accordance with the above rules.

RESOLUTION.—On a reconsideration of the subject, the Government of India think it necessary to modify the rules contained in the resolution of 8th September 1875 so far as regards the burial of deceased Roman Catholics. The Government of India have now decided :—

1st, that at stations where there is a Roman Catholic priest drawing an allowance from Government, he shall be held bound to read the burial service over the body of every deceased Roman Catholic soldier brought for burial, unless he is excused from doing so by the Rubrics and Canons of the Roman Catholic church; and that when the Roman Catholic priest refuses to read the burial service over the body of a deceased Roman Catholic soldier, the military authorities shall make proper arrangements for the decent interment of the corpse;

2ndly, that where there is no Roman Catholic priest paid by the State the Protestant chaplain shall if requested by the friends of the deceased, or by the officer commanding, be bound to bury the deceased according to the rites and ritual of the Church of England, except in either of the three cases in which Protestant Chaplains in India are excused from burying a deceased Protestant, viz., dying unbaptised even by lay baptism; excommunicated by the major excommunication; or declared to be *felo de se*; and that when a Protestant chaplain refuses to officiate at the burial of a deceased Roman Catholic soldier, on either of the three abovementioned grounds, the military authorities shall, as in the case of refusal by a Roman Catholic priest, make proper arrangements for the decent interment of the corpse;

3rdly, that whenever, with or without furnishing any explanation of his reasons, a Roman Catholic priest paid by the State or a Protestant chaplain refuses to perform the funeral rites of his church over the body of a deceased Roman Catholic soldier, the circumstances of the case should be fully reported by the military authorities for the consideration and orders of the Government.

2. The Governor General in Council is accordingly pleased to direct the modification in the above sense of the provisions of paragraphs 15 to 19, inclusive of the resolution, dated 8th September 1875.

NOTES.—(1) The expression "proper arrangements for the decent interment of the corpse" in rule 1 and 2 means that when both the Roman Catholic and Protestant chaplains refuse burial in a case of suicide by a Roman Catholic soldier whilst of unsound mind, the burial service should be read over the body by the officer commanding the deceased's company.

Letter to the Government of Madras, No. 347, dated the 31st October 1877.

(2) The intention of the passage "bound to bury the deceased according to the rites and ritual of the Church of England" in rule 2 is, that the service of the Church of England should be read over the body, if the Protestant chaplain is requested by the friends of the deceased to do so; but the rule does not in any way reimpose on Protestant chaplains the burden of reading the burial service over either soldiers or civilians to whom a Roman

Catholic chaplain has refused burial. There is nothing to prevent a chaplain burying anyone if he chooses to do so, provided they are not unbaptised "even by lay baptism," excommunicated by the major excommunication, or declared to be *felo de se*, only the Protestant chaplain is no longer bound to do so.

(3) The expression "unbaptised even by lay baptism" in rule 3 is equivalent to "unbaptism by either clerical or lay baptism." The meaning intended to be conveyed is that baptism, either by lay or clerical, is sufficient to prevent a person from being regarded as "unbaptised" for the purposes of the rule

GOVERNMENT SCHOLARSHIPS—1913-1914.

IN INDUSTRIAL SCHOOLS UNDER THE CONTROL OF THE SUPERINTENDENT OF INDUSTRIAL EDUCATION, MADRAS.

One hundred and ninety-nine scholarships will be awarded in recognised Industrial Schools and will be tenable in the classes and for the periods mentioned below:—

56 scholarships of the monthly value of Re. 1-8-0 tenable for one year in Standard C.
65 scholarships of the monthly value of Rs. 2 tenable for one year in Standard D.
40 scholarships of the monthly value of Rs. 3 tenable for one year in the Elementary class.
20 scholarships of the monthly value of Rs. 6 tenable for two years in the Intermediate class.
8 scholarships of the monthly value of Rs. 9 tenable for two years in the Advanced class.

The scholarships in Standards C and D and in the Elementary Industrial classes will be awarded on the results of the examinations in Standards B, C and D respectively and those in the Intermediate and Advanced classes on the results of the Government Elementary and Intermediate Technical Examinations respectively. No scholarships will be awarded on the results of the highest examination in any subject.

The conditions of award are as follows:—

(1) These scholarships shall be awarded by the Superintendent of Industrial Education, Madras.

(2) The candidate shall ordinarily have been a student at the time of the examination and at least one year previously in a recognised Industrial School. *Scholarships in industrial subjects will ordinarily be given only to members of the artisan castes or to others whose families are already engaged in the trade.*

(3) The age of the candidate at the time of the examination shall not have exceeded 16 years in the case of Standard C, 17 in standard D, 18 in Elementary, 19 in Intermediate and 22 in Advanced examination classes. In the case of Muhammadan candidates the age-limit will be raised by two years.

(4) The scholarship in a given subject shall be awarded to the candidate who obtains the highest number of marks in that subject, provided that he has passed in the first class. Scholarships may also be awarded at the discretion of the Superintendent to other pupils of promise whose pecuniary circumstances are certified by the head of the school to be such as to prevent them from prosecuting their studies without assistance. The claims of those sections of the community who are most in need of aid, will, other conditions being satisfied, be first considered.

(5) Candidates who are preparing for a group certificate or a diploma shall have preference over those who are studying single subjects only.

(6) No student shall be allowed to hold at the same time more than one scholarship. If eligible for more than one, he shall elect which he will hold, and the scholarship thus set free will be awarded to the next most deserving student.

(7) The candidate shall bind himself to prosecute his studies in the subject in which he has passed and for which he is to receive a scholarship in a recognised Industrial School.

(8) Scholarships are ordinarily intended for pupils devoting not less than half their time or a minimum of 15 hours a week to industrial work, but the Superintendent of Industrial Education reserves to himself the right to award a double scholarship to pupils devoting the whole of their time to industrial work, if he considers that circumstances warrant his doing so.

General Regulations.

All applications for scholarships awardable under this notification should be submitted to the Superintendent of Industrial Education, Madras, by the correspondent of the institution in which the pupil studied in 1912, through the correspondent of the institution in which he intends to study, on printed forms which may be obtained from the Superintendent. All applications should be dated. Separate forms should be used for each grade of scholarship. If one form is not large enough, the list should be continued on another form.

2. The applications should reach the Superintendent within three weeks of the publication of this notification, or of the publication of the results of the Government Technical Examinations on which the scholarships are awarded, whichever is later. Those submitted after the prescribed date, will be liable to rejection for that reason.

3. Any scholarship vacated in the course of the period for which it is tenable may be awarded for the remaining period to an eligible applicant in the same year of study as the holder of the scholarship vacated.

4. The names of selected candidates will be notified by the Superintendent in the *Fort St. George Gazette*.

5. Heads of institutions may grant leave without diminution or loss of scholarship for a period not exceeding one month to scholars who are absent in consequence of severe sickness, but if the leave exceeds this period no allowance is to be granted for the excess period. Casual leave without diminution or loss of scholarship may be granted for good and sufficient reasons for a period not exceeding fifteen days in the year, provided such leave does not immediately precede or succeed gazetted holidays. Under the above conditions, leave for scholarship-holders may be sanctioned by the head of the institution, but should be reported to the superintendent. If a scholarship-holder absents himself without good reason on the re-opening day after the vacation for the institution, the scholarship for the vacation is liable to be withheld at the Superintendent's discretion.

6. No person receiving a scholarship under this notification shall be permitted to hold another scholarship provided wholly or partially by Government without the special sanction of the Superintendent. Such sanction will be accorded only for very distinguished merit.

7. Where the order of merit cannot be clearly ascertained, the Superintendent may at his discretion order a further competitive examination among those who are eligible for scholarships.

8. All scholarships tenable under the above rules are liable to forfeiture, for idleness, misconduct, irregularity in attendance or failure to make due progress or to secure annual promotion.

9. A scholarship held in any class shall run from the beginning of the month in which the holder joins the class and shall not continue to be drawn after he ceases to attend the class. The scholarships are payable monthly.

10. In all cases where poverty has been made a condition of award, applications will be summarily rejected unless the evidence of poverty such that but for the scholarship the applicant could not continue his studies, is thoroughly satisfactory.

11. In addition to the register required to be maintained under rule 80 of the Madras Educational Rules an acquittance roll containing the following information shall be maintained by the heads of

the institutions concerned and shall be produced at the time of the departmental inspection of the institution :—

(1) Number.
(2) Name of scholarship-holder

REVENUE NOTIFICATIONS.

NOTIFICATIONS.

The Madras Provincial Forest Service will be recruited—

(a) from men who have successfully passed through the Provincial Service course at the Research Institute, Dehra Dun,

(b) by promotion of deserving Rangers.

2. Candidates for the special course of training at Dehra Dun will be selected in September of each year as the exigencies of the service may require by a Committee consisting of the Forest Commissioner, another Member of the Board of Revenue and the Conservator of Forests, Central Circle. The selection will be confined mainly to young men who are of good physique and social standing and who are in all respects qualified by previous education; preference will be given to those candidates who have a substantial knowledge of one or more branches of Natural Science, but a knowledge of English and Mathematics will also be required in order to enable those selected thoroughly to follow and profit by the course of instruction. The nominations will be submitted by the Board of Revenue for the approval of the Local Government.

3. Candidates should be prepared to satisfy the Committee in such manner as may be prescribed by the Committee that they possess the requisite physical and educational qualifications to undergo successfully the tests mentioned in rule 6 *infra*.

4. Except for special reasons and with the special sanction of the Local Government, no student will be deputed for the special course who is not between the ages of 18 and 25 on the 1st November of the year in which the special course begins. Candidates must therefore be between the ages of 17 and 24 on the 1st November of the year in which they are selected.

5. Selected candidates will, before deputation, be required to undergo practical training for a period of twelve months under a District Forest Officer and will be paid during this period a stipend of Rs. 40 with a fixed travelling allowance of Rs. 25 *per mensem*. Candidates are liable to rejection if the results of their practical training are such as to indicate that they are unlikely to prove good Forest officers.

6. Selected candidates will, on arrival at Dehra Dun, undergo such physical test as may be prescribed by the President, followed by a medical examination before a Medical Board; they are also liable to undergo an examination in English and Mathematics to be held by the President.

Note 1.—At present the physical test is a walk from Dehra to Mussoori and back, a distance of 25 or 28 miles to be completed within the number of hours that may be prescribed.

Note 2.—Candidates are expected to know sufficient English to follow the course, and in Mathematics should know Arithmetic, Algebra up to and including quadratic equations and simple problems, Geometry, the first three books of Euclid and the elements of Trigonometry including the solution of triangles and the use of Logarithms.

7. Before proceeding to Dehra candidates will be required to execute a formal agreement and a security bond with two sureties for Rs 4,000 that they will serve the department for at least five years after their return from Dehra. The sureties should be persons residing or owning property in British India.

8. Selected candidates, while under training at Dehra Dun, will be granted a stipend of Rs 80 *per mensem* in addition to actual expenses for journey by rail or steamer. They will, on returning to Madras duly qualified, be given a bonus of Rs 480 to help them to purchase the equipment necessary for their work. Candidates will be paid the usual travelling allowances admissible under the Civil Service Regulations for joining the college at Dehra and for their return on successful completion of the two years' course.

9. Candidates who have obtained the necessary certificates from the Forest Institute, Dehra Dun, will be posted to the Forest Service as Probationary Extra Assistant Conservators, but they may not be substantively appointed to the Provincial Service until they have served on probation for two years and until actual vacancies in that service arise; their pay during the period of probation shall not exceed Rs 150 *per mensem* and if their probationary period is extended, their pay during the first year of extension shall not exceed Rs. 150 *per mensem* and Rs. 200 *per mensem* during the remaining period of extension.

10. Any candidate who is not appointed permanently to Government service before attaining the age of 23 may be allowed to count as service towards pension any period of training or probation after attaining that age.

11. Rangers of long service and approved merit are eligible for promotion to the Provincial Service without any further training. When so promoted, they will be appointed first acting on probation and confirmed if found suitable.

12. An officer appointed direct to the Provincial Forest Service or Rangers promoted to that service will on permanent appointment be designated Extra Assistant Conservator and receive pay at Rs 250 *per mensem* rising by an annual increment of Rs. 20 to Rs. 550. They can further be appointed as Extra Deputy Conservators on Rs 575, rising by annual increment of Rs. 25 to Rs. 650. After an Extra Assistant Conservator has attained to Rs. 550 a month

promotion to the class of Extra Deputy Conservator will depend upon the occurrence of vacancies in that class, provided always that no Extra Assistant Conservator will be eligible for promotion as Extra Deputy Conservator unless he is considered by the Local Government to be fit for a major charge. An Extra Assistant Conservator who has served for not less than three years on Rs. 550 a month, and who is considered by the Local Government fit to hold a major charge but for whom no vacancy exists in the upper controlling staff, may, however, be given a personal allowance of Rs. 50 a month; and in the case of officers whom the Local Government consider fit for further increase of pay this allowance may be augmented to Rs. 100 a month on the expiry of a further period of four years and to Rs. 150 a month on the expiry of a second period of four years. The Local Government may, by special order in each case, promote an Extra Deputy Conservator after one year's service on Rs. 650 a month to Rs. 700 a month for a period of three years and again to Rs. 800 a month for a further period of three years, and may then promote him to Rs. 850 a month until the close of his service, but promotion to Rs. 700, Rs. 800 and Rs. 850 a month should only be made when the Local Government is satisfied at each step that the individual is thoroughly deserving of such promotion

NOTICE.

It is hereby notified that one candidate will be selected for direct recruitment to the Provincial Forest Service in July next. Intending candidates should send their applications with copies of testimonials to the Secretary to the Board of Revenue (Land Revenue), Madras. The applications must reach the Secretary before 15th July 1913

Board of Revenue (Land Revenue—Forest),

W. G. McFARLAND,
Secretary.

No. 10.—Whereas it has been found necessary to take steps to control the preparation, possession and sale of denatured spirits in the Madras Presidency, the following rules have been framed by the Board of Revenue, under section 2, Act XVI of 1863, and sections 13 and 15 of the Abkári Act I of 1886, in that regard in supersession of those contained in Notification No. 11, dated 27th February 1912, published on pages 430–441 of the *Fort St. George Gazette*, dated 5th March 1912. They will come into force at once :—

1. Denatured spirit is spirit rendered effectually and permanently unfit for human consumption by the admixture of light coaltarhousine and crude pyridine bases wholly made from a mineral source as per specifications appended, or wood-naphtha, or other special denaturants, approved of by the Board of Revenue.

2. Denatured spirits are liable to a duty of 5 per cent. *ad valorem* : the duty being calculated on the declared issue price of each consignment at the distillery, less the discount, if any, allowed to purchasers and the duty. Distillers should, when applying for a permit, declare the sale price of the spirit at the distillery for the purpose of calculating the *ad valorem* duty.

3. Denatured spirit may be manufactured by holders of distillery licenses in the Presidency, provided (1) that the light coaltarhousine and pyridine bases to be mixed with the spirit must first be tested and approved in the Board's Laboratory, (2) that they must be kept under lock and key by, and used under the supervision of, the distillery officer, (3) that they must be used in the proportion of $\frac{1}{2}$ a gallon of light coaltarhousine and $\frac{1}{2}$ a gallon of pyridine bases to 99 gallons of the spirit, and (4) that the spirit shall not be of less strength than 50 per cent overproof. Similar conditions apply to the use of wood-naphtha, in the special cases where its use is permitted, with this difference that one part by volume of crude wood-naphtha of a strength not less than 50 per cent overproof shall be mixed with nine parts of spirit and that the use of wood naphtha in a highly purified condition will not be permitted. The Board's previous sanction should be obtained in cases of special methods of denaturation for spirit intended for use in particular arts and manufactures.

4. Spirit denatured with light coaltarhousine and pyridine bases may be imported by sea, but samples must be submitted to the Board's Laboratory and there certified to be fully denatured before it can be removed from the Custom-house. In the case of imports by sea from other Presidencies a certificate from the Collector of Customs at the port of shipment to the effect that the spirit has been fully denatured may be accepted in lieu of the Board's report. Spirit that is not sufficiently denatured must either be denatured afresh or must pay duty at the full tariff rate. Spirit treated with wood naphtha or other special denaturants can be imported only with the special sanction of the Board.

5. Licenses (M.S.—1) for sale of spirit denatured with light coaltarhousine and pyridine bases will be issued by Collectors, free of fee, to respectable applicants on their showing that they have a legitimate demand for such spirit. All such applications should be forwarded to the Collector through the Inspector of the Salt, Abkári and Customs Department of the Circle in which the applicant wishes to hold his license. No such license will be issued to persons licensed to sell liquor for consumption on the premises.

6. The holders of M.S.—1 licenses may obtain their supplies of spirit from the customhouse or distillery on production of a written permission (M.S.—2) for the removal of the same

from the Collector of the district in which the custom-house or distillery is situated. Books of form of application for such permission (M.S.—3) will be supplied to them. These applications should be forwarded to the Collectors concerned through the Collector of the district to which the applicant wishes to transport the spirit. The spirit may also be obtained from a depot licensed for the wholesale vend of the spirit in quantities not exceeding 120 gallons at a time or from other M.S.—1 licensees up to a maximum of 20 gallons at a time on presentation of a requisition in form M.S.—8. The licensees are also empowered to sell spirit to one another and to holders of M.S.—1-a licenses up to a maximum of 20 gallons at a time. The transport of spirit thus sold should be covered by a permit to be granted by the seller in each case. Books of permits (M.S.—9) for the transport of the spirit to be obtained from holders of M.S.—1 licenses in quantities exceeding one gallon but not exceeding 20 gallons will be issued to holders of these licenses on application to the Collector of the district in which they carry on their business.

7. Varnish-makers and others requiring spirit denatured with light coaltobenzine and pyridine bases for use in their business, but not for sale, will be given special licenses (M.S.—1-a) on application, supported by evidence as to their requirements through the Inspector of the Circle, to the Collector of the district in which they carry on their business. They will be supplied by distillers or through the custom-house on presentation of a permit (M.S.—2) to be obtained from the Collector on application in form (M.S.—3). These licensees may also obtain their supply of spirit from a depot licensed for the wholesale vend of such spirit in quantities not exceeding 120 gallons at a time or from holders of M.S.—1 licenses up to a maximum of 20 gallons at a time.

8. Holders of M.S.—1 and M.S.—1-a licenses will, on application to the Collector of the district in which they carry on their business, be furnished with books of requisitions (M.S.—8) authorising them to obtain spirit denatured with light coaltobenzine and pyridine bases in quantities exceeding one gallon but not exceeding 20 gallons at a time from holders of M.S.—1 licenses, and in quantities not exceeding 120 gallons from a depot.

9. Similar licenses (M.S.—1-b) will be given to Chemists and others who, for special reasons, require spirit spoiled with wood-naphtha. The procedure will be the same except that (unless the Board has given a special authority to import) the spirit will be obtainable only from local distilleries and that the licensees will be required to enter into a bond (M.S.—4) with the Collector undertaking to use the spirit for the purpose specified and no other. The forms to be used in this case will be M.S.—1-b, M.S.—2, M.S.—3. Persons holding these licenses will also be allowed to sell such spirit up to a maximum of one reputed quart at a time, on the use of it being ordered in writing by a competent medical man. Such orders are to be retained by the seller in his stock book until the latter is inspected by an Abkári officer.

10. A special license in form M.S.—1-c will be issued to the Railway Companies in the Presidency for the storage and use of spirit denatured with light coaltobenzine and pyridine bases and its distribution to such stations on their respective lines, as may be specified in the license, provided that the licensees enter into bond with the Collector undertaking to use the spirit for the purpose specified in the license and no other. The licensees may obtain their supplies of the spirit from the custom-house or distillery on production of a written permission (M.S.—2) to be obtained from the Collector of the district in which the custom-house or distillery is situated on application in form M.S.—3. The spirit may also be obtained from a depot licensed for the wholesale vend of the spirit up to a maximum of 220 gallons at a time on production of a requisition in form M.S.—8. Books of applications or requisitions may be had from the Collector of the district in which the license is held. The Railway Companies will be exempted from taking out separate licenses for individual stations for the possession and use of the spirit received from the M.S.—1-c premises. The transport of spirit should be covered by a permit (M.S.—9) to be granted by the licensees in each case.

11. A special license in form M.S.—1-d will be granted to distillers, who are also manufacturers of denatured spirits, for the wholesale vend of such spirits, manufactured in their distilleries, not exceeding 120 gallons at one time to holders of M.S.—1 and M.S.—1-a licenses and not exceeding 220 gallons at one time to holders of M.S.—1-c licenses on production of a requisition in form M.S.—8. The transport of the spirit so issued shall be covered by a permit in form M.S.—9 to be granted by the depot-keeper in each case.

12. The Customs or Distillery officer or wholesale depot-keeper concerned will send an advice in form M.S.—5 of each issue of denatured spirit that he makes to the Inspector of the Circle to which the spirit is consigned. This advice must be sent promptly at the time of issue. No issue of more than 500 gallons at any one time to any one person is permitted from a custom-house or distillery.

13. Unlicensed persons are prohibited from selling denatured spirit, and from possessing more than one gallon at a time. The limit is fixed under section 13 of Act I of 1886. Breach of the rule will subject the offender to the penalties prescribed in the Act.

14. When insufficiently denatured spirit is again denatured under rule 5 *supra*, the importer will bear the expense.

15. The minimum strength at which imported and locally-made denatured spirit can be sold will be 50° over-proof.

APPENDIX.

OFFICIAL LABORATORY TESTS TO ASCERTAIN THE SUITABILITY OF SAMPLES OF LIGHT CAOUTCHOUCINE AND PYRIDINE BASES FOR DENATURING ALCOHOL.

Light caoutchoucine.

1. *Nature.*—By "caoutchoucine" is meant the liquid obtained by the dry distillation of vulcanised rubber. By "light caoutchoucine" is meant the liquid obtained by redistilling "caoutchoucine" and collecting that portion which passes over at or below about 200° C.

2. *The specific gravity of light caoutchoucine.*—The specific gravity of light caoutchoucine at 60° F should lie between ·835 and ·860 referred to water as 1·000.

3. *Boiling test.*—For the purpose of this test, 100 c.c. of light caoutchoucine should be redistilled in the pyridine testing flask (see specification for pyridine bases). Under these conditions not more than 25 c.c. of distillate should pass over at or below 160° C. whilst a total (including the foregoing) of at least 70 c.c. should pass over at or below 200° C.

4. *Absence of soluble constituents.*—When 25 c.c. of light caoutchoucine are shaken with an equal volume of water in a stoppered graduated cylinder and due time is allowed for the liquids to separate again into two layers, the light caoutchoucine should show no appreciable diminution in volume.

5. *Neutrality.*—The aqueous layer obtained from test 4 should show no marked acidity or alkalinity when tested with both red and blue litmus paper.

6. *Limit of saturated hydrocarbons.*—At least 70 per cent. of the light caoutchoucine should be soluble in concentrated sulphuric acid. For testing this, 25 c.c. should be measured off into a tapped and stoppered separating-cylinder of suitable capacity and sulphuric acid should be added, at first with great care and in very small quantities. After each addition of acid, the cylinder should be shaken and cooled to avoid loss of volatile constituents. Sufficient acid must be used (usually about 5 c.c.) for the high coloured layer to become quite fluid so that it can separate readily from the upper layer of unattacked constituents. After a final thorough shaking and cooling, the cylinder should be left for about three hours to effect complete separation of the two layers and the lower layer be then tapped off. The almost colourless upper layer should be again shaken with strong sulphuric acid until it appears free from soluble constituents (as judged by the colour imparted to the sulphuric acid) and separated as before after standing. It should finally measure not more than 7 c.c. The acid used should be of specific gravity 1·84 and may be of commercial quality.

7. *Freedom from water.*—Light caoutchoucine should not contain any appreciable amount of water. Any officer engaged in drawing samples for test should certify on the bottle that he has drawn the sample from the bottom of the containing vessel where the water, if present, will be found. For this purpose he should employ a syphon tube of which the shorter limb reaches to the floor of the containing vessel. He should also assure himself that the sample is collected in a bottle free of moisture.

Pyridine bases.

I. Colour.—The colour must not be darker than that given by two cubic centimetres of decinormal iodine solution dissolved in one litre of distilled water.

II. Miscibility with water.—20 c.c. of the pyridine bases should give a clear mixture with 40 c.c. of water; or else a mixture only so slightly opalescent that, after standing for five minutes, ordinary news paper type is clearly visible through a layer 15 c.m. deep.

III. Amount of water present.—From 20 c.c. of the pyridine bases mixed with 20 c.c. of caustic soda solution (density 1·4), at least 18·5 c.c. of the bases should separate, after having been repeatedly shaken together and allowed to stand.

IV. Titration.—Dissolve 1 c.c. of the pyridine bases in 10 c.c. of distilled water. Titrate with normal sulphuric acid until a drop of the mixture gives a definite blue spot on congo-red paper (the blue colour should at once disappear). At least 10 c.c. of the normal sulphuric acid should be required to produce this reaction. (To prepare the congo-red paper, dissolve one gram of congo-red in one litre of distilled water. Soak filter paper in this and then dry.)

V. Cadmium chloride reaction.—Vigorously shake together 10 c.c. of a solution of 1 c.c. of pyridine bases in 100 c.c. of distilled water with 5 c.c. of a 5 per cent. solution of dry fused cadmium chloride. A distinct crystalline precipitate should immediately result.

VI. Boiling-point.—Distil 100 c.c. of the pyridine bases in the manner described below. At least 90 per cent. should distil over at or under 140° C.

Method.—100 c.c. of pyridine bases are placed in a short-necked copper flask of about 200 c.c. capacity. The flask is arranged on an asbestos card which has a circular hole of 30 m.m. diameter cut in it. To the flask is attached a fractionating column (consisting of a tube 13 m.m. wide and 170 m.m. long, provided with one bulb) of which the side-tube (issuing 1 c.m. above the bulb) joins a Liebig's condenser of which the cooled part is at least 400 m.m. long.* A standard thermometer is placed in the head of the column so that its bulb occupies the centre of the bulb of the column.

The speed of distillation is adjusted to 5 c.c. per minute, the distillate being received in a graduated glass cylinder. At least 90 c.c. should distil over at or under 140° C. at a barometric pressure of 760 m.m.

If the barometer varies from 760 m.m., a correction of 1° C. for each 30 m.m. of variation should be applied (*e.g.*, under 730 m.m. of pressure 90 c.c. of distillate should come over at or under 140·3° C., whilst under 790 m.m. the same amount of distillate should come over at 139·7° C.).

NOTE.—Pyridine proper is a single definite compound ($C_5 H_5 N$) boiling at about 116° C. Pyridine bases are mixtures of pyridine with closely allied compounds boiling at various temperatures. They are cheaper and more effective denaturants than the pure pyridine.

STATEMENT OF OBJECTS AND REASONS

The object of this Bill is to establish a register of qualified medical practitioners which would enable the public generally, and the less educated portion of the community in particular, to ascertain what practitioners were really qualified, and in what the nature and extent of their qualification consisted. The Bill also aims at establishing and maintaining a minimum standard of professional qualification to entitle a person to become a medical practitioner. The medical register is intended to be something more than a medical directory. The qualified and registered practitioners are intended to be brought under some disciplinary control exercised through a General Medical Council.

Clause 4 deals with the privileges of qualified practitioners in the way of granting medical certificates.

Clause 4 (3) lays down the disabilities of unqualified medical practitioners from holding certain appointments.

Clause 5 provides for the creation of a Madras Medical Council and lays down the constitution of that Council which is partly by election and partly by nomination.

Clause 7 deals with the tenure of office of members of the Madras Medical Council.

Clause 10 provides for the appointment of registrar, treasurer and other officers and clerks necessary to carry out the provisions of the Act.

Clause 11 provides for the maintenance of a register of qualified medical practitioners.

Clause 13 defines persons who are entitled to be registered. Besides the medical practitioners who are registered under the Medical Acts, provision is also made for the registration of practitioners qualified in India receiving a medical degree from one of the Indian Universities or a qualification to practise medicine, surgery and midwifery from one of the examining boards authorized by any of the governments in India to grant such qualifications.

Clause 16 provides for the disciplinary control over registered practitioners by giving the Madras Medical Council authority to remove from the register the name of any one convicted of a cognizable offence as defined in the Criminal Procedure Code or of any one who has been found guilty by the General Medical Council of infamous conduct in professional respect. In the latter case the clause provides for a trial at which the accused practitioner is to be heard either in person or by counsel.

Clause 18 is intended to give the General Medical Council the opportunity of maintaining the standard of professional qualification at the requisite high level.

The definition of hospitals, asylums, infirmaries, dispensaries, lying-in hospitals in the Bill together with the provisions of clause 13 (b) entirely removes the Ayurvedic and Unani systems outside the operation of this Act.
